

Dear Friends,

I am sending out a call for an interior image of your home (how ever you quantify this is fine) . Please send me a "snap shot" of any place in your house. Send via email as an attached file. The higher the resolution the better. It can be taken on your cell phone, does not have to be perfect. The images will be printed and painted over. They will supply the backdrop for a small publication which is due in March. So please send as soon as you can & I will get started. Once the images are scanned, and published, I will mail your image with my painting back to you so please supply your address.

Looking forward in the new year,
Marley
